Profile

I am a dedicated and passionate final-year IT student with a strong interest in software development. As a fresher, I have gained practical experience in full-stack Java development through my internship, where I worked on web and mobile applications using technologies like Flutter, HTML, CSS, JavaScript, and Spring Boot. I am eager to bring my skills into a professional environment, continuously learn new technologies, and contribute to meaningful projects.

Education

St.Ann's.Mat.Hr.School, Panagudi	2018 - 2019
SSLC 90%	

St.Ann's.Mat.Hr.Sec.School, Panagudi	2020 - 2021
HSC 92%	

University College of Engineering, Nagercoil	2021 - 2025
B.Tech Information Technology	

Skills

Technical Skills

- **Programming Language:** Java | Python | C | Dart | JavaScript
- **Front – End:** HTML | CSS
- **Framework:** Flutter | Bootstrap | SpringBoot
- **Database:** MySql
- **Tools:** Figma
- **Version Control:** Git | GitHub

Soft Skills

- Communication
- Teamwork
- Problem Solving

Projects

Waste Management Android App

Java | Google Maps Api

Developed a waste reporting Android app using Java, with Firebase as the backend. The app enables users to report waste issues by uploading photos, providing location details, and submitting descriptions. Integrated a real-time database for tracking reports and notifications, ensuring prompt response to waste management concerns.

Tourism App

Flutter

Created a tourism app using Flutter, offering features such as destination search, detailed travel information, and interactive maps. The app provides users with an engaging interface to explore tourist spots, view local attractions, and access travel tips. Integrated real-time data and location services to enhance user experience and support seamless navigation.

User Management System

HTML | CSS | JS | Java | SpringBoot | MySql

Developed a user management system with a front-end built using HTML, CSS, and JavaScript, and a back-end powered by the Spring Boot framework. The system includes features for user registration, authentication, and role management, with SQL used for the database. Designed to efficiently manage user data and ensure secure access, the application provides a responsive and intuitive user interface.

Experience

Srishti Innovative, Trivandrum | Intern

10 July'23 - 14 July'23

Android Application Development

Gained hands-on experience in building Android apps using Java, including creating user interfaces and implementing basic features. Worked with a team to debug and test apps, learning key aspects of mobile app development.

White Track Technologies | Summer Internship

May 2024 | 4 Weeks

Java Full Stack Development | Web Development

Developed web applications using Java, working on both front-end and back-end tasks. Built and integrated APIs, worked with databases, and collaborated on creating responsive user interfaces.

Achievements and Certifications

- Kumari Hackathon – Finalist
- TCS iON Career Edge – Young Professional – TCS iON
- Flutter – SimpliLearn [online]
- Introduction to Spring Framework – SimpliLearn [online]
